To Whom It May Concern,

It gives me great pleasure to recommend Mr. Oussama Makhbouche. I have taught him in the Software Engineering program at King Saud University and have been impressed by his professionalism, creativity, and genuine enthusiasm for learning.

Oussama stands out as a student who combines strong technical ability with excellent communication and teamwork skills. His presentations are clear, confident, and engaging, and he has a talent for explaining complex ideas in a simple and structured way. Within group projects, he plays a positive and supportive role, often helping other teams refine their work and improve their designs. His UI/UX and front-end design skills are outstanding, showing both creativity and attention to detail.

He is also very active outside the classroom, participating in hackathons and university events where he applies what he learns to real-world challenges. These experiences highlight his initiative, adaptability, and problem-solving mindset. In addition, Oussama represents King Saud University as a competitive swimmer, achieving top placements in national tournaments for three consecutive years. His commitment to both academics and athletics reflects discipline, focus, and determination.

Oussama approaches every task with energy and purpose. He is reliable, hardworking, and consistently produces high-quality work. His motivation, creativity, and well-rounded personality make him an asset in any academic or professional environment. I am confident he will continue to excel and make meaningful contributions wherever he goes.

If you require any additional information or have further questions, please feel free to contact me.

Sincerely,

Sultan Alsarra
